My uncle Oliver remembers the Agricultural show that was held in the grounds of Louisburgh National school in the 1960's. There were competitions for the best farm and domestic animals and there were also competitions for the best vegetables. It was a great day for the children. There were lots of game and events. My uncle remembers this wheel that was spun around. He couldn't remember the name of the wheel but if it stopped on your colour you would win a prize. The community put a huge effort into the show like preparing the vegetables, animals etc. The children loved the show, they thought it was lots of fun.
