The land lord,
Land lords were people
from England who lived
in large house. And who had
taken all the land from the
Irish farmers. They then rented
back the land to the Irish for
very unfair amounts of money.

If they couldn't pay they were
thrown out of their houses.
Old tradition in Boy.

First the turf was cut by a scythe.

Then it was spread and then it was made into clamps.

Then it was brought home by donkey and scythes.

In the old days the work was much harder in the boy.

Not like now adays there were machines to the work.
