

When the dew is in the grass Rain
will never come to pass.

When grass is dry at morning light, look for
rain before the night.

A summer fog for fair, a winter fog for rain

Clear night - cold days

When ditch and pond reflect the rose, look for
rain and stormy blows

A good rain in June sets all in tune

Calm weather in June sets corn in tune

rain before 7, fine before 11

Swains travelling far and wide, a rainy
day will be tide

April shower makes may flower

The longer the fog the more the rain

If it thunders on All Fools day, it brings
good crops of corn and hay

No weather is ill if the wind be still

When the sunblow's nest is high
Summer is day, when the sunblow's nest
is low you can safely reap and sow,

Sack Gleason
